

Climate change and trans-local solidarities

Paul Routledge

Paul.Routledge@ges.gla.ac.uk

This project will consider local responses and adaptations to climate change across a range of different sites in the Global North and Global South, and consider how effective, carbon-sensitive solidarities around climate action are negotiated. The project will investigate issues of risk and vulnerability in the context of the construction of networked relations between different communities.

Application procedure and deadlines

To be considered for PhD studentships to be held in the School of Geographical and Earth Sciences (GES), suitably qualified candidates should apply via the website of the College of Science and Engineering

(<http://www.gla.ac.uk/colleges/scienceengineering/graduateschool/prospectivestudents/essentialinformation/>).

Closing dates for University and research council funded studentships will be in early in the new year, as stated on the GES studentships page:

(<http://web2.ges.gla.ac.uk/~mlee/GES%202010%20studentships>).

Non- English speakers must meet the University's English language requirements. Candidates for ESRC studentships should also meet the ESRC's requirements for both academic qualifications and residential eligibility. For more information go to

<http://www.esrc.ac.uk/ESRCInfoCentre/index.aspx> and please note that *non-UK European Union citizens will be awarded fees only by ESRC.*

For informal enquiries about the research projects please contact the relevant supervisors. Information on the GES graduate school and the application process can be obtained from Mrs Jean McPartland, the assistant to head of the School (Jean.McPartland@glasgow.ac.uk), or Professor Susan Waldron (Susan.Waldron@Glasgow.ac.uk), the head of the GES graduate school.
